

HOW TO LOG ON TO DELATANET *for alumni*

Search...

[Home](#) [News](#) [Ask HR](#) [HR Menu](#) [Self-Service](#)

Deltanet for Alumni is how Retirees and Alumni access Delta News, Benefits Information, Self Service and Travelnet. Once you are no longer employed you cannot use the same link or URL to access Deltanet. Please follow the instructions below to get logged in.

Within a few days of your exit, please visit <https://deltaairlines.sharepoint.com/sites/dlnRetiree> enter your credentials into the Extranet log in screen (9 digit PPR and password)

**Tips:**

- Your password from when you were active will work as long as you attempt to login within 60 days of your exit. If you wait longer than that you may need to have your password reset by Delta IT Service Desk. 1-404-714-HELP
- Clear your cache and history on your device before attempting to login. If not, your device may try to force you to the active version of Deltanet where your credentials will not work, and you will receive an “unauthorized” message.
