

Retiree Death Checklist and Survivor Benefits Processing

As a retiree, it is important to inform your family members of the steps they should take in the event of your death. As your surviving family members may be eligible for benefits, it is very important for them to contact the My Delta Service Center (MDSC) as soon as possible following your death. By placing this call, family members help ensure the timely set up of their survivor benefits (if applicable) and help avoid any potential overpayments from your pension plan (if applicable). In addition, life and/or accident insurance coverage may be payable upon your death.
